I consider myself a highly responsible and entrepreneurial person, passionate about challenges and constant learning. I am motivated to work in teams and lead projects, as I enjoy sharing my knowledge and skills to achieve common goals. I am convinced that collaboration and leadership are key to achieving success in any project, and I am committed to putting all my effort and ability at the service of the team.

Informatics Systems Engineer && Full Stack Developer && Teacher.

JavaScript | TypeScript | VueJs | Vue3 | HTML | CSS | SASS | JsDoc | Jest | Vitest | Pinia | Vuex | Eslint | Vim | Bash | Python | Golang | NodeJS

Work History

2021-07 - Current	<div>Frontend Developer and Team Leader.</div> <div><i>SunMedia</i></div> <div>I led the development of SunStudio, a web ad creation project similar to Figma. As the leader, my responsibilities included project structuring, technology and library selection, and supervision of a team of 5 developers to ensure we met programming objectives and best practices. This project allowed me to demonstrate my ability to lead a team and achieve successful results in a challenging and constantly evolving environment.</div> <div><i>HTML, CSS, JavaScript, Vue3, Pinia, Vite, Vitest, NodeJS, Bash Scripts, Python, JsDoc, Eslint, Prettier.</i></div> <div><u>Talking about Gitlab-CI config.</u></div> <div>During my experience with Gitlab, I acquired skills in configuring pipelines for continuous integration and continuous deployment. As a result, I was tasked with delivering training on the subject at SunMedia, covering basic principles and how to configure continuous integration for enterprise projects.</div> <div><u>Talking about Vite.</u></div> <div>After creating the structure of a project with Vite, my colleagues asked me to give a talk explaining how to implement Vite and its features for use in other projects.</div>
2018-11 - 2021-08	<div>Frontend Y Golang Developer</div> <div><i>Rapicopia, MADRID</i></div> <div>Developer and programmer for the entire frontend</div> <div><i>HTML, CSS, JavaScript, VueJS, NuxtJS, Webpack, NodeJS, Bash Scripts, UX.</i></div> <div>Developer and programmer for RapicopiaApp in Golang.</div> <div>RapicopiaApp is a small local server for the branch that allows printing and downloading of customer notes.</div>
2020-12 - 2020-12	<div>Frontend Developer.</div> <div><i>SunMedia, MADRID</i></div> <div>At SunMedia, I developed a data management application for advertising campaigns and contributed to the creation of the company's UI component library. I proposed solutions and improvements that resulted in excellent results and valuable learning experiences. I was recognized for my commitment, responsibility, and ability to work in a team.</div> <div><i>HTML, CSS, JavaScript, VueJS, Vuex, Webpack, Bash Scripts, Jest.</i></div>
2018-07 - 2020-10	<div>Fullstack Developer.</div> <div><i>Tribal Consulting , MADRID</i></div> <div>Fullstack developer for various projects for different clients.</div> <div><i>VueJS, Nativescript-vue, NodeJS MongoDB ExpressJS, NuxtJS, Bash Scripts</i></div> <div><i>HTML, PUG, CSS, LESS, JavaScript, AngularJS, GruntJS.</i></div>
2017-11 - 2018-02	<div>Fullstack and Mobile App Developer</div> <div><i>Freelance, MADRID</i></div> <div>Event management and publication system.</div> <div><i>Ionic, CordovaJs, AngularJs, NodeJS, ExpressJS y MongoDB.</i></div>
