PROFESSIONAL SUMMARY

Senior Full Stack Developer with 7+ years of experience building scalable web applications and 5+ years leading development teams. Advanced proficiency in the JavaScript ecosystem (Vanilla JS, Vue, Node) and Go, with a proven track record of delivering complex projects from conception to deployment. Led a team of 5 developers, architected complete business solutions spanning mobile and web, and is currently building a team of AI agents that works side by side with the human development team.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, Vue 2, Vue 3, HTML, CSS, Pinia, Vuex, Vite, Vitest

Backend: Go (Golang), Node.js, Python, MongoDB, MySQL/MariaDB

Architecture: Hexagonal Architecture, Domain-Driven Design (DDD), Microservices

Mobile: Ionic, Capacitor, Framework7

Testing: Jest, Vitest

DevOps: GitLab CI/CD, Bash scripting, Docker

AI-assisted engineering: Design and coordination of AI agent teams working alongside human developers

Tools: Git, Vim/Neovim

PROFESSIONAL EXPERIENCE

Frontend Developer & Team Leader | *EXTE (formerly SunMedia)* | July 2021 - Present

- **Led a team of 5 developers** building SunStudio, a Figma-like web ad creation platform
- **Architected the project structure** and selected the technology stack, improving development cycles; implemented DDD and Hexagonal Architecture to ensure scalability and maintainability
- **Implemented CI/CD pipelines** with GitLab, **cutting deployment time from 40 minutes to 3**
- **Delivered technical training** on Vite and GitLab CI to 15+ team members
- **Currently building a team of AI agents** to work hand in hand with the rest of the development team
- **Technologies:** Vue3, Pinia, Vite, Vitest, Python, GitLab CI/CD

Senior Frontend Developer | *SunMedia* | December 2020 - July 2021

- **Developed a data management application** for advertising campaigns
- **Created the company's UI component library**, used across 8+ internal projects
- **Proposed and implemented performance improvements**, increasing app speed by 30%
- **Technologies:** Vue.js, Vuex, Webpack, Jest

Full Stack Developer | *Rapicopia* | November 2018 - August 2021

- **Developed the complete frontend** of a customer management system
- **Built RapicopiaApp in Go**, a local server application for branch printing and note management
- **Optimized the user experience**, reducing customer processing time by 25%
- **Technologies:** Vue.js, Nuxt.js, Webpack, Go

Full Stack Developer | *Tribal Consulting* | July 2018 - October 2020 (in parallel with Rapicopia)

- **Delivered multiple client projects** as a full stack developer
- **Developed cross-platform mobile applications** using Ionic
- **Technologies:** Vue.js, Ionic, Node.js, MongoDB, Express.js, Nuxt.js, Webpack

KEY PROJECTS

Hornera - Complete Rental Management System | *Personal Project*

- **Architected and developed** an end-to-end solution for a temporary rental company
- **Features:** availability management, cleaning coordination, maintenance scheduling, billing, Booking.com and Airbnb integration
- **Impact:** automated 90% of manual processes and reduced operational costs by 50%
- **Stack:** Go backend, MariaDB, Vue3 frontend, Framework7 mobile app

img2gcode | *Open Source* | **42 GitHub stars**

- github.com/MaraniMatias/img2gcode
- **Node.js package** that converts JPG, PNG and GIF images into G-code for CNC machines and laser engravers
- Uses a **pathfinding algorithm** to find the shortest trace between pixels
- **Stack:** TypeScript, Node.js

codereview.nvim | *Open Source* | **10 GitHub stars**

- github.com/MaraniMatias/codereview.nvim
- **Neovim plugin** for reviewing any Git diff with inline notes, unified or split views and a file explorer
- **Markdown and table exports** for LLM workflows, plus Telescope and Git difftool integration
- **Stack:** Lua, Neovim

Event Management Platform | *Freelance* | **November 2017 - February 2018**

- **Built a complete event management system** with real-time updates
- **Technologies:** Ionic, Cordova, Angular.js, Node.js, Express.js, MongoDB

LEADERSHIP & ACHIEVEMENTS

- **Team Leadership:** managed a 5-person development team, working closely with the CTO, UX, QA and product teams on complex projects
- **Process Improvement:** introduced CI/CD practices that cut deployment time from 40 minutes to 3 and reduced deployment errors by 80%
- **Technical Training:** delivered 5+ internal training sessions on modern development practices, including Vite and GitLab CI for 15+ team members
- **AI Adoption:** building a team of AI agents that collaborates with the human developers on day-to-day delivery

EDUCATION & LANGUAGES

- **Information Systems Engineer** | National Technical University, Rosario, Argentina | 2011-2020. Focus: Software Engineering, Database Systems, Project Management
- **Languages:** Spanish (native), English (professional, B2)
